CORONARY ANGIO.

- Congenital absence of origin of LM from Aorta.
- RCA: large , kinked, patent, super dominant vessel giving large Coronary fistula opens into RV outflow and gives anomalous origin of Left system with short LM just before coronary fistula that bifurcates into LAD and LCX with collaterals to RCA.
- LAD: of small caliber , filled antegradely from RCA .
- Diffuse atherosclerosis of its distal part.
- LCX: of small caliber , filled antegradely from RCA .

WHAT DO YOU THINK ABOUT THE TREATMENT.؟؟

- Medical؟
- Surgical؟
- Coil embolisation؟

The 44th Annual International Congress of the EGYPTIAN SOCIETY OF CARDIOLOGY CardioEgypt2017

- The pt. is still alive ,he refused any intervention.
- He is still on medical treatment., expecting sudden death like his father,

Thank you

The 44th Annual International Congress of the EGYPTIAN SOCIETY OF CARDIOLOGY CardioEgypt2017
